

Ballerino Nate

by Kimberly Brubaker Bradley

Objective: ... use logical thinking

Illustrated by R. W. Alley

Animal Dance Class

Six new animals joined Nate's dance class in the fall. They were a bear, a hippopotamus, an ant, a rabbit, and a turtle. Nate wanted to remember their names so he could tell his Mom when he got home. He saw their names on a list on the wall:

Use the clues below to help you match the names with the animals. Write their names under their pictures.

Clues:

1. Baby Bop wished she had six legs like one of the dancers.
2. Tickles wore a bow on her head.
3. The bear wished her name was Berry.
4. Rocky's body covering was hard like a rock.
5. The ant loved Berry's long ears.
