

 Dear Jeffrey,  
How do I tell you that you are special to us? You light up a room with your smile, your laugh makes everyone want to laugh with you. Your sense of humor is amazing that at only "9" you know what is funny and you always "get the joke". You are sensitive to others feelings, caring, and always thinking of others first, loving to everyone, giving without counting what you have. left, enthusiastic to learn and ALWAYS eager to learn more. You know there are 5 spokes in the family wheel and you are just as important as the other 4. You make us proud just because you are "YOU"! We have laughed, cried, played, and just

enjoyed each others company in these very short "9" years, and there will be many many more to come. Our hope for you in the future ~~is~~ to be happy, listen to your conscience, and feel with your heart. Follow what God tells you and talk to Him often. Learn from your stumbles along the way. Trust that your Dad and I will always be here for you. "Home" is a safe place that you can just be "JEFF."

We love you dearly,  
Mom + Dad  
John + Jennifer
